PROJECT EXPERIENCE

AI Smart Attendance System | 2025 – 2026

Full-Stack AI Developer [Python, OpenCV, DeepFace]

- Engineered a real-time facial-recognition attendance system using DeepFace, achieving ~95% identification accuracy across 50+ registered users.
- Automated end-to-end attendance logging, eliminating 100% of manual roll-call effort and reducing process time by 80%.
- Integrated OpenCV live video stream pipeline, processing 20+ frames per second for instant verification.
